

Colour temperature adjustable LED strip lighting

TEC led lighting again brings lighting innovation to the market with its amazing colour adjustable LED strip lighting. With a simple turn of a dial, you can adjust the colour temperature (in Kelvin) of your LED strip lighting to suit your particular mood.

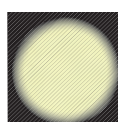

By the ingenious combination of two LED chips alongside each other, a colour spectrum of 2500K to 6000K can be achieved using a wall mounted or remote touch pad controller.

SPECIFICATIONS							
Code	LED QTY	Voltage	Power	View angle	CRI	Lumens	Temperature
????????????	120 per m	DC24V	19.2W per m	120°	>90	540 - 700	2500K - 6000K
